MEETING OF THE EUROPEAN LIPOPROTEIN CLUB
Tutzing (n. Munich), F.R.G.
September 9–12, 1991

Topics will include:

- Hormonal regulation of lipoprotein metabolism. (Influence of sex, endocrine disturbances, and hormones including growth factors, cytokines, and other regulatory factors)
Chairpersons: Bo Angelin, M.R. Taskinen.
- Structural determinants of lipoprotein function. (Including sequence analysis, immunologic, molecular genetics and physicochemical approaches)
Chairpersons: L. Aggerbeck, M. Rosseneu.
- Vessel wall–lipoproteins interaction.
Chairmen: D. Bowyer, G. Schmitz.
- State of the Art Lecture: Lipoproteins in inflammatory reactions.

Further information and abstract forms can be obtained from the secretary: Dr. M. Rosseneu, Secretary European Lipoprotein Club, Department of Clinical Biochemistry, A.Z. St-Jan, B-8000 Brugge, Belgium. Tel.: (50) 45 25 22; Fax: (50) 45 22 38.
